EP-CHUCK POLE EXTENSION

Product Name: pole extension
Model No: PE50FH, PE50EH, PE75FL, PE50EL
 PE75FH, PE75EH, PE75FL, PE75EL

Description

To accommodate workpiece geometry and allow 5-side machining, Made of cold-drawn steel, the pole raisers can be machined to any shape. The table shows an extract from our standard range. Can be supplied with specific machined dimensions, prepared for customer's workpiece dimension.

Rigid, for fixed support.

Mechanically flexible, for light components.

Flexible Pole Raisers

Spring loaded in axial direction.
 For clamping of rugged workpieces with bended shapes. Suitable for reaching evenness in a first set up.

Fixed Pole Raisers

Profiled shapes possible.
 Workpiece is pulled down by magnetic forces. Suitable for reaching high parallelity.

Specifications

Model	A(mm)	B(mm)	C(mm)	D(mm)
PE50FH	50	48	60	
PE75FH	75	70	60	
PE50FL	50	48	30	
PE75FL	75	70	60	
PE50EH	50	48	60	7
PE75EH	75	70	60	7
PE50EL	50	48	30	3
PE75EL	75	70	30	3

Other size on request.
